

## Clean-Brite 201 - Alkaline Multi-Metal Cleaner

### DESCRIPTION

Clean-Brite 201 is a mildly alkaline powder cleaner designed for heavy-duty transmission case and parts cleaning in a hot spray tank. It is a very effective degreaser and cleaner for all metals, concrete floors and as laundry detergent for machine and auto/truck repair shops. Clean-Brite 201 is biodegradable, non-odorous, and low foaming in even severe pressure applications. Non-corrosive to most metals when used in the recommended concentration range.

### DIRECTIONS

Spray tank - use at 1 - 3 % and 130 - 190 °F.

Dip tank - use at 2 - 5 % and 150 - 200 °F.

Allow sufficient cleaning time then while parts are still hot rinse with warm water hot to minimize flash rusting. For difficult to clean burnt transmissions, Clean-Brite 243 additive is available. To clean concrete floors, sprinkle Clean-Brite 201 on a wet surface, agitate with a stiff brush, wait 5 minutes and then rinse with water.

### CAUTION

Clean-Brite 201 contains Sodium Metasilicate. Avoid ingestion, inhalation of dust, contact with skin, eyes and clothing. Keep container closed to avoid excessive moisture absorption.
